

ABSTRACT:

5 The present invention provides methods of, computer programs for and
apparatus for control and/or observation of a device with communication
capabilities by a controller device with hypertext or hypermedia communication
capabilities. More particularly, but not exclusively, the present invention relates to
methods of, computer programs for and apparatus for control and observation of a
consumer electronics device with communications capability from a mobile
controller device with hypertext or hypermedia communications capability over a
10 proximity bearer.
